

Commercial Video Editing:

Creative Developments handles all aspects of video post production for film and for the web, be a 5 minute video short film a documentary or a feature length film. We can work from your edit logs, storyboards and other production requests and put together a final cut ready for distribution.

Our video editors can work with footage recorded from multiple cameras, incorporate and synch your audio files. Creative Developments will do our very best to enhance and fix footage that is over or underexposed, eliminate camera shakes, remove blemishes and enhance your video footage. Our video editors can work with layers, mattes and green screen footage, superimpose your footage and develop and incorporate your special effects footage, rendering out a professional video presentation.

Price for commercial video editing: \$200 a day or ~5 minutes of professionally developed footage per day. Discounts offered for large scale projects.

Home Video Editing:

Creative Developments wants you to absolutely love your home movies and create a video even a stranger can watch. This is why we go to such lengths to make your video editing project as fun, entertaining and heartfelt as it possibly can be. Our video editors will eliminate all excess footage, synch the scenes together, apply spot editing to your audio and video and render out for you a DVD with chapter menus and a custom made cover case.

Video Editing: \$100 editing cost for every hour of raw footage.

Additional fees may apply for advanced editing requests; motion tracking, brightness/contrast and color correcting.

Batch Capturing (Mini DV): \$25 for every hour of footage captured and converted.
