

Home Video Editing:

Creative Developments wants you to absolutely love your home movies and create a video even a stranger can watch. This is why we go to such lengths to make your video editing project as fun, entertaining and heartfelt as it possibly can be. Our video editors will eliminate all excess footage, synch the scenes together, apply spot editing to your audio and video and render out for you a DVD with chapter menus and a custom made cover case.

Batch Capturing (Mini DV): \$25 for every hour of footage captured and converted.

Video Conversion from DD/VOB, VHS & Hi8: \$25 for every hour of footage converted from the source to digital video.

DVD Creation: \$30 for the first DVD. \$15 for each additional DVD (includes graphics for DVD case-holder)

Smart Video Chapter Building: \$25 for every hour footage edited. Price includes smart chapter marking and labeling, separating out the specific events of each video tape.

Advanced Video Editing: \$25 an hour for advanced editing requests, including; motion tracking, brightness/contrast correction, color correcting and smart editing; deleting redundant video and eliminating those embarrassing blips and blurbs you'd rather never see again, making for a sleek, watchable presentation.

Commercial Video Editing:

Creative Developments handles all aspects of video post production for film and for the web, be a 5 minute video short film a documentary or a feature length film. We can work from your edit logs, storyboards and other production requests and put together a final cut ready for distribution.

Our video editors can work with footage recorded from multiple cameras, incorporate and synch your audio files. Creative Developments will do our very best to enhance and fix footage that is over or underexposed, eliminate camera shakes, remove blemishes and enhance your video footage.

Our video editors can work with layers, mattes and green screen footage, superimpose your footage and develop and incorporate your special effects footage, rendering out a professional video presentation.

Cost: \$200 a day or ~5 minutes of professionally developed footage per day. Discounts offered for large scale projects.

Video Rendering for the Web:

Covert your source digital video to the digital video format of your choice for streaming on the web.

Cost: \$25 hourly. Time is dependant upon the length of film, format chosen, size of exported video and FTP time for file uploading to a server computer. Discounts offered for large scale projects.
